## ABOUT "YOUTH IN MUSIC"

The aim of Youth in Music is to create and strengthen our ***community*** that, through the development of specific skills related to music, learns to collaborate, communicate and overcome the barriers of prejudice, stereotype and cultural ones, with the aim of rediscover ourselves as members of a single close-knit group.

This project proposes a model that can create a real transformation in the social relations of a community, such as the possibility of **cultural production** in a **collective way**, through artistic experiences that highlight **music**, with the final result of cultivating a community capable of building collectively, in a few days, a unique event, an "**Improvised Concert**"

In "Music for EU-ths", **rhythm** and **improvisation** become the tools through which skills, relationships, and roles necessary for collective construction are developed, to transform a group of people into a group of artists who take care of their compositional framework.

We will work on the development of new **musical techniques**, discovering how to make music together through **improvisation**, at the base of which there is **listening to the other**, the **recognition** and **respect of others' musical-personal space** and **personal harmonious putting into play**: elements that, combined, create a work of the whole, the final result of which depends on the union of the sounds of each one, each different and each of a personal inestimable value.

During the activities we will work on a method that will include the *sharing of one's feelings*, the *comparison* and the capacity for *self-assessment* which will increase the process of becoming aware of the skills developed.

If you want to see with your eyes what's going to happen in Capranica, give a look at the videos we shot during our previous Youth Exchange:

The farmhouse is 500 mt from Capranica train station (directly linked to Rome) and is composed of 4 structures suitable for hosting all 30 participants in accordance with health rules foreseen for covid-19. The farmhouse will be reserved for the Youth Exchange in order to allow an efficient and safe subdivision of the participants in the rooms.

The main room for workshops is very spacious and has big windows and doors allowing air exchange.

The flooring is wooden, perfectly suitable for physical activities.

Most activities will be held on the outside. The farmhouse, in fact, is surrounded by a huge garden, allowing a constant contact with nature.
